

VACUUM FILTERS

INLET FILTERS - CLEANABLE

- Positive O-ring seal system
- Vacuum rating to 0.5 Torr
- Capacity rating to 1000 CFM
- Comes in 1/2" to 6" connection size
- No need for costly replacement filters
- NON rusting materials

U.S. Vacuum CLEANABLE INLET FILTERS are straight thru vacuum filters made to protect vacuum pumps from damaging particulate matter. Filters utilizes a stainless steel mesh media to capture contaminates. Excellent choice for food processing applications where a non-rusting easy to clean filter is required.

Filter include liquid filled pressure gauge (2" and larger) with mesh screens available from 40 to 320 mesh.

CLEANABLE INLET FILTERS

MODEL "VFCV"	CFM	DIMENSIONS	CONNECTIONS	PRICE
VFCV-40	40	6.50 X 7.312	1" NPT	\$575.00
VFCV-60	60	6.50 X 7.312	1-1/2" NPT	\$595.00
VFCV-200	175	6.50 X 7.312	2" NPT	\$595.00
VFCV-300	400	15.75 X 13.25	2-1/2" NPT	\$635.00
VFCV-800	500	15.75 X 13.25	3" NPT	\$695.00
VFCV-1000	800	18.00 x 12.00	4" NPT	\$1500.00
